

2 Column Case Study Template

Date Published: September 29, 2017

Background

In the first paragraph, open with the context (location, partnership, funding), continue with a brief description of objectives, target audience, technology and approach followed, and close with the main results, conclusion and recommendations. (6 to 10 lines)

Include photos, pictures and/or tables that make the description of the project more visible and easy to understand and read. Please include figure caption in respective places. The suggested number of lines is exclusive of figures and tables

Sample: In addition to providing loans and leases, the financing arm of an international financial services firm wanted to expand its product lines across other media outlets, such as internet, radio, and mobile devices.

Customer Profile

Describe the customer's areas of specialty e.g.; accountancy software for SMEs, flagship products; alliances and partnerships; notable achievements. Outline the issues that your customer faced and the goals you aimed to achieve. Identify the strategic or competitive reasons that caused you, or your customer, to require this solution. (5 lines)

Challenge

Context

Expand on the background of the case study by highlighting the main reasons behind this project, such as significant problems, business drivers and, if appropriate, details of the physical location, government legislation, socio-economic, and technical factors. (6 to 10 lines)

Sample: How can the subsidiary of a luxury fashion designer house leverage its well-known brand to expand into other services? How could these products be developed, branded, and brought to market?

Objectives

Describe the project's aim with details of its specific objectives and the strategies used to achieve them.

Sample: The challenge was to establish a web-based business for accountants. The solution would need to allow the fastest possible time to release, reliability,

Solution Overview

Customer Profile

Describe the customer's areas of specialty e.g. web-based accountancy; flagship products; alliances and partnerships; notable achievements.

Outline the issues that your customer faced and the goals you aimed to achieve.

Objectives

Describe the project's aim with details of its specific objectives and the strategies used to achieve them.

Solution

List the technologies used on the implementation.

- Software and Services
- Windows NT Server
- SQL Server

Technical Components

List the technologies used on the implementation.

- Software and Services
- Salesforce
- SQL Server

Third Party Tools

- Google Cloud
- Amazon AWS
- Oracle

Benefits

- Benefit #1
- Benefit #2
- Benefit #3

and flexibility. Java technologies were selected over several alternatives because of these requirements. (6 to 10 lines)

Finding the Right Partner

Describe why the customer selected your product or services. Expand on what they liked about your company, particularly in terms of your ability to solve their problem. Highlight the unique skills your company offered in designing, developing, and implementing the solution.

"Never leave that till tomorrow which you can do today. Never leave that till tomorrow which you can do today. Never leave that till tomorrow which you can do today. Never leave that till tomorrow which you can do today." Name, Role, Company

Row Title	Column Title
